Quality Statement

Our Mission

Shaping a World of Trust by ensuring Responsible Progress

Bureau Veritas is a Business to Business to Society service company that contributes to positively transforming the world we live in. We work closely with our clients to address the critical changes they face and to link these to the emerging aspirations of Society.

We play a pivotal role in building and protecting companies' reputations, supporting them as they forge the foundations of trust that is built to last.

By broadening the scope of our services, expanding our international network and staying ahead of global trends, we better serve our clients, and promote a more sustainable future.

Our Commitment

To helping our customers achieve and exceed their goals, Quality at Bureau Veritas is to:

- Continuously challenge and improve our quality management system, to ensure its adequacy with Bureau Veritas orientations and customer satisfaction levels.
- Satisfy and build on our clients and all other applicable requirements to propose innovating services

Since 1996 Bureau Veritas has been ISO 9001 certified through a recognized international independent certification organism.

Since 1828, we have acted as trust-makers between companies, governments and society, independent, impartial guarantors of our client's word.

The Bureau Veritas Code of Ethics meets all TIC (Testing, Inspection, and Certification) Council principles and requirements. Its implementation is regularly assessed by an external third party.

Didier Michaud-Daniel
CEO
